Jesus Can Heal a Leper

As we continue our "God Can Do Anything" unit, we are changing our focus slightly to Jesus and his works. Our lesson this week was on the story of Jesus healing a leper. We danced and sang songs like "Jesus Is the Best, Oh Yes!" and "Touch the Sky." Our activities included ways that Jesus helps us with situations we have today, like dealing with a broken arm, the flu, or a scraped knee. The first was sort of a flashback to our Detective Ivan Spyvan days where we listened to clues dealing with how Jesus helps us through our troubles, and the second was a sort of hot potato game, but instead of being out you got to hear the question and try to give an answer about how God helps us through certain situations.

The lesson came from Matthew, Mark and Luke, and was the story of Jesus healing the Leper. The kids got to see how a volunteer dressed up as a leper and was shunned by the other people of the village, no one wanted to be around him. But, because Jesus can do anything, he healed the man (or woman in our case!).

We also wanted to let you know that we would love to have parents come into our classroom and listen to our praise songs with the kids anytime. You can also purchase the CD from Willow Creek Community Church's Web site if you like, contact Laura Kenworthy for more information.

Don't forget! We have our prayer wall up in the KidZone, please invite your JAM kids (or any age) to come up and add prayers to our wall!

Thanks to all our Genesis parents for helping to foster a great sense of God and His direction in our lives. Your guidance and assurance to these children is so important, and I'm so thankful to have such amazing children in our classroom. Keep watching the Web site for more lesson reviews and updates on our classroom life!

Take Care and God Bless!
